

All VENT GAS Treatment from startup to shut in

Impact provides solutions to treat **H₂S**, Mercaptan and other odorous compounds typically found in the oilfield. Removal of **H₂S** will improve worker safety, reduce liabilities and improve public relations and reduce landowner concerns. It also addresses concerns with the EUB.

Safe, Effective Vent Gas Treatment for odors and H₂S

Impact provides a safe and effective way of removing **H₂S** by providing solutions to suit specific requirements in a **full service package**. (partial component packages are also available)

Impact will provide equipment and required chemicals (including delivery and disposal) for treatment of Sweet or Sour vent gas

All sources of sweet and sour vent gas that contain odors and/or **H₂S** can be treated effectively, including vent gas from:

- Water and Condensate storage tanks
- Pig trap receivers
- Sweet or Sour Glycol Dehy drip columns
- Pipeline liner vents
- Truck loading stations
- Any source of **H₂S**, Mercaptans, or other associated odors

Technology

- Proven technology treating at hundreds of locations throughout Alberta.
- **H₂S** concentrations over 40% have been treated effectively
- Odor neutralization used extensively in the Oil & Gas industry for sweet applications.

Equipment

- Impact can provide the equipment for rental or purchase
- We will custom design and supply if required (many years of experience)

Services

- Site specific analysis
Each site is evaluated on an individual basis and solutions recommended
- Custom design and fabrication or “off the shelf” equipment can be used
- Rental of all **H₂S** removal equipment is available
- Sales of equipment if preferred
- Chemical delivery, changeout, removal, and disposal service included at one monthly price.

Chemicals

- Proven **H₂S** and Mercaptan removal liquid scavengers are used.
- Enhanced odor neutralization included in formula
- Liquid with <-50C freeze point
- Sweet gas odor neutralization

Impact removes H₂S and odors from any gas source, Economically, Effectively, and Efficiently. We provide a complete package - Equipment, Chemical (including delivery and disposal) and all associated services for one monthly price.
